

Southern African Bird Atlas Project

Occurrence:

n indicates the total number of cards on which the species was recorded. We also give this as a percentage (%) of the total cards for the site. The monthly breakdown shows the number of times the species was reported, as a percentage of the total cards for the month (ie: reporting rate).

Breeding:

n represents the number of cards on which confirmed breeding activity was reported. The monthly breakdown is the number of times the species was recorded breeding.
