

# Southern African Bird Atlas Project

## Occurrence:

n indicates the total number of cards on which the species was recorded. We also give this as a percentage (%) of the total cards for the site. The monthly breakdown shows the number of times the species was reported, as a percentage of the total cards for the month (ie: reporting rate).

## Breeding:

n represents the number of cards on which confirmed breeding activity was reported. The monthly breakdown is the number of times the species was recorded breeding.

## Site summary for:

**Site Name: & CA VELDDRIF (3218CC)**

**Province: Western Cape**
