

Southern African Bird Atlas Project

Species summary for:

Common name: **African Crowned (Crowned) Eagle**

Scientific name: *Stephanoaetus coronatus*

Conservation status: Near threatened

- Less than 2% reporting rate
- 2% - 25% Reporting rate
- 25 - 50% Reporting rate
- >50% Reporting rate

Occurrence:

The reporting rate (%) is the number of cards that contained the species (n), expressed as a percentage of the total number of cards for the location. The monthly breakdown indicates the percentage distribution of cards per month for which the species was recorded.

Breeding:

n represents the number of cards on which confirmed breeding activity was reported. The monthly breakdown is the number of times the species was recorded breeding.

The reporting rate (%) is the number of cards that contained the species (n), expressed as a percentage of the total number of cards for the location. The monthly breakdown indicates the percentage distribution of cards per month for which the species was recorded.
