

# Southern African Bird Atlas Project

## Species summary for:

Common name: **Dune Lark**

Scientific name: *Certhilauda [Calendulauda]  
erythrochlamys*

Conservation status:

- Less than 2% reporting rate
- 2% - 25% Reporting rate
- 25 - 50% Reporting rate
- >50% Reporting rate

### Occurrence:

The reporting rate (%) is the number of cards that contained the species (n), expressed as a percentage of the total number of cards for the location. The monthly breakdown indicates the percentage distribution of cards per month for which the species was recorded.

### Breeding:

n represents the number of cards on which confirmed breeding activity was reported. The monthly breakdown is the number of times the species was recorded breeding.

The reporting rate (%) is the number of cards that contained the species (n), expressed as a percentage of the total number of cards for the location. The monthly breakdown indicates the percentage distribution of cards per month for which the species was recorded.

Location Area Code	Occurrence												Cards	Breeding														
	n	%	J	F	M	A	M	J	J	A	S	O	N	D		n	J	F	M	A	M	J	J	A	S	O	N	D
